Methods and materials for containment and cleaning up

Small Spillages:
Absorb spill with vermiculite or other inert material, then place in a container for chemical waste.

Large Spillages:
Prevent further migration into the environment. Absorb spill with vermiculite or other inert material, then place in a container for chemical waste. Local authorities should be advised if significant spillages cannot be contained. Large spills due to traffic accidents, etc., should be reported immediately to CHEMTREC and Elanco Animal Health for assistance.

Environmental precautions Prevent spilled material from flowing onto adjacent land or into streams, ponds, or lakes. Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling NOT INTENDED FOR HUMAN USE.
Avoid contact with eyes, skin, and clothing. Wash hands thoroughly after handling. Keep away from heat and sources of ignition. Avoid release to the environment.

Conditions for safe storage, including any incompatibilities Keep refrigerated. Keep container tightly closed.
